Sassafraz Wine Program

Thank you for exploring our wine list, we are glad you decided to join us for a drink today. It is our goal to provide you with a great selection of wines from all over the world. We would like to help you make that selection without feeling pressured into ordering a wine you may not enjoy. We added a few notes about the taste profile and the history of the wine to help with your decision.

Our wines-by-the glass program now includes Enomatic selections which allow us to keep open bottles of wine in a preservation system so that you can enjoy a glass of wine with the same freshness that you would experience if that bottle was just opened. The Enomatic system will keep a bottle of wine fresh for up to six weeks by removing the air and reducing oxidation to ensure that when you order that special glass you are experiencing its true character.

Although infrequent, our vintages may change, and some selections have limited quantities.
